Election/Restrictions

1. Claims 13-16,22, and 24-26 are allowable. The restriction requirement between species A,B,C,D,E,F,G, and H as set forth in the Office action mailed on 4-19-06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 17-20 and 23, directed to species C,D,F,G, and H are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 27-31, directed to an intraocular lens system including a vacuum area, remains withdrawn from consideration because claims 27-31 do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. This application is in condition for allowance except for the presence of claims 27-31 directed to a species non-elected without traverse. Accordingly, claims 27-31 have been cancelled.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

At paragraph [0001], line 4 after "2002," ---now U.S. Patent No. 6,855,164--- was inserted.

At paragraph [0001], line 5 after "2002," ---now abandoned--- was inserted.

At paragraph [0106], line 9, "posterior wall 614" was replaced with ---posterior wall 616---.

Reasons For Allowance

4. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or substantially render obvious an intraocular lens configured to be received within a human eye comprising primary and secondary optically transmissive fluids having different densities and refractive indices within an optic body in amounts such that:

a. At horizontal positions, the anterior and posterior optical centers are immersed in the primary fluid.

b. At downward angled positions including 90° from horizontal, the optical axis extends through the primary and secondary fluids.

- c. At upward angled positions, the secondary fluid is inhibited by a dike from flowing toward the anterior and posterior optical centers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William H. Matthews (Howie) whose telephone number is 571-272-4753. The examiner can normally be reached on Monday-Friday 10-6:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine M. McDermott can be reached on 571-272-4754. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
